Event Information:

Dr. Beth Dougherty, Ph.D., Department of Political Science and International Relations, Beloit College, will discuss the criminal tribunals of Yugoslavia, Rwanda, and Sierra Leone and compare them with the future tribunal in Iraq. She will explore how to pursue justice and reconstitution in the aftermath of mass atrocities.

The League has an international relations position supporting the World Criminal Court, which the U.S. has refused to join. This has been an obscured issue which Dr. Dougherty will undoubtedly open up to us.

Dr. Dougherty was on a panel at the special forum following 9/11 sponsored by the League and other local organizations called "Coming Together in the Aftermath", which the local League was commended by the National League for sponsoring.

Don't miss this knowledgeable, dynamic speaker.

Please contact the Event Contact or Chair for further information.
